## Investments that Matter

Global School of Sports Ministry

DECEMBER 2014

### Why invest in Global School of Sports Ministry?

#### SHORT ANSWER:

*A small investment pays huge dividends.*

#### HOW?

Organizations like our State Department and others invest large amounts of money to set up a variety of aid programs to help people in Africa and other developing countries.

For much less than it costs one Western worker to run a program, GSSM can prepare and place 20 or more national sports ministers in the harvest fields with these qualifications :

- ✓ Fully trained.
- ✓ They know the language.
- ✓ Understand the culture.
- ✓ Numerous contacts already in place.
- ✓ Are aware of the interests and challenges of the people.
- ✓ They are residents and do not require VISAS.
- ✓ Have GSSM consultants available at no cost.

**OVER...**

## AND IT GETS BETTER!

When the second term is completed, GSSM will have placed 40 sports ministers in the field for the same amount of money since each program initiated by our students is sustained by the local church and other believers in the region in which the graduate will be working.

### **Although unbelievable, it gets progressively better!**

With each succeeding graduating class, the numbers continue to increase exponentially. In a relatively short period of time, GSSM will be able to place hundreds of sports ministers in countries around the world for less than it takes to support one western worker in Africa.

### **THERE IS ALSO A BONUS...**

A select number of GSSM graduates will become trainers of others. GSSM will equip these special students to become instructors and provide a seed grant to get them started. GSSM will also provide textbooks and other resource materials as they launch their training program. In addition, GSSM will continue to serve as consultants and assist as needed.

## **Conclusion... Is this a GOOD investment or NOT?**

*You decide.*

*GSSM believes it is  
absolutely one of the  
finest eternal  
investments anyone can  
make.*

*Thank You for  
considering GSSM.*
